Tips to take care of your cat

01 - Providing a safe environment

Create a safe space for your cat by removing hazards and toxic substances.

02 - Litter box training and maintenance

Scoop the litter box daily and change the litter regularly to maintain cleanliness.

03 - Healthcare and vaccinations

Schedule regular veterinary check-ups to monitor your cat's health.

04 - Feeding and nutrition

Choose high-quality cat food that meets your cat's specific nutritional needs.
